

CONTENTS

Inhibition of Hepatic Microsomal Carboxylesterase Activity by Paraoxon. <i>M. C. Castle</i>	7
Action of Diisopropylfluorophosphate and of Diacetylmonoxime on Acetylcholine Levels and on Cholinesterase Activity in the Central Nervous System. <i>L. Molinengo and M. Orsetti</i>	17
Salicylic Acid Metabolism in Pregnant Rats. <i>T. S. Emudianughe</i>	28
Dissociation of the Effects of Acute Chlomipramine on Morphine Analgesia and Plasma Concentrations. <i>M. Bianchi, C. Ripamonti, L. Palazzolo, F. Pazzucconi and A. E. Panerai</i>	34
Influence of Dopamine Agonists and an Opiate Antagonist on Agaricus-Induced Catalepsy, as Tested by a New Method. <i>N. C. Sukul and W. R. Klemm</i>	40
Differential Effects of Mercurial and Methylmercurial Ions on the Phrenic Nerve and Diaphragm of the Mouse. <i>W.-M. Fu, C.-Y. Liu and S.-Y. Lin-Shiau</i>	52
Cardiovascular Effects of GABA System Activating Drugs Injected into the Caudal Ventrolateral Medulla of the Rat. <i>M. Kihara and T. Kubo</i>	67
Effects of α -Adrenoceptor Agonists on Cardiac Output and Blood Pressure in Spinally Anesthetized Ganglion-Blocked Dogs. <i>R. Yamazaki, K. Tsuchida and H. Aihara</i>	80
Cardiovascular Properties of a 5-HT ₁ -like Receptor Agonist, 5-Methoxy-3(1,2,3,6-tetrahydro-4-pyridinyl)-1H-indole (RU 24969) in Normotensive Anaesthetized Rats. <i>C. Cherqui, H. Dabire, B. Fournier and H. Schmitt</i>	94
Antihypertensive Activity of a New Calcium Channel Blocker LF 2.0254, in Spontaneously Hypertensive Rats: A Comparison with Nifedipine and Nicardipine. <i>D. Pruneau and N. L. Brown</i>	109
Relative Negative Inotropic Potencies of Nine Calcium Channel Blockers in Cultured Heart Cells. <i>V. Briand, S. Laurent, J. F. Vaxelaire, L. Micheli, M. C. Auclair and H. Schmitt</i>	125
Effects of the Novel Class Ia and Class III Antiarrhythmic Agent RS-87337 on Myocardial Conduction in the Anaesthetised Dog. <i>M. C. Allely and B. J. Alps</i>	138
Cardiac Electrophysiological Effects of Bupivacaine in the Anesthetized Dog: Relation with Plasma Concentration. <i>J. J. Eledjam, J. E. de la Coussaye, J. Brugada, C. Masse, G. Desh, F. d'Athis and A. Sassine</i>	147
Cardioselective Effects of Gallopamil Compared with Verapamil in the Dog Heart. <i>K. Takahashi, K. Tsuchida and H. Aihara</i>	157
Antagonism of Adenosine-Induced Relaxation by Methylxanthines in Coronary Artery. <i>M. V. Ramagopal, V. A. Rash and S. J. Mustafa</i>	174
Different Inhibition by Vasodilators of Coronary Artery Contraction. <i>S. Inoue, M. Kinoshita and N. Toda</i>	181
Effects of Capsaicin on the Contractility and Peptide-containing Nerves of Large Cerebral Arteries of the Cat. <i>A. Saito, T. Masaki, T. J.-F. Lee and K. Goto</i>	194
Histamine Tachyphylaxis in Young Dog Airway—Compared with Adult Dog. <i>T. Watanabe, R. Duncan, R. F. Lockey and J. J. Krzanowski, Jr.</i>	204
Uptake and Displacement of [³ H]-Propranolol and [³ H]-Chlorpromazine in Isolated, Recirculating Perfused Guinea-Pig Lungs. <i>B. Heinzow, H. Lüllmann and L. Staib</i>	211

Doxofylline, an Antiasthmatic Drug Lacking Affinity for Adenosine Receptors. <i>R. Cirillo, D. Barone and J. S. Franzone</i>	221
Muscarinic Receptor Sensitivity in Airway Smooth Muscle of Patients with Obstructive Airway Disease. <i>C. J. Van Koppen, J. F. Rodrigues De Miranda, A. J. Beld, C. A. M. Van Ginneken, J.-W. J. Lammers and C. L. A. Van Herwaarden</i>	238
Effect of Metoclopramide and Ranitidine on Acetylcholine Release from Isolated Rat Stomach. <i>N. Yoshida, T. Karasawa and T. Kadokawa</i>	245
Gastric Relaxation Evoked by Captopril (SQ 14,225) in Anaesthetized Rats. <i>R. Rani and K. S. Rao</i>	257
Gastric Protective Effects of Gastric Secretagogues on 0.6N HCl-Induced Gastric Lesions in Rats. <i>Y. Isobe, H. Hirose-Kijima, M. Muramatsu and H. Aihara</i>	270
Biphasic Response of Circular Muscle to Prostaglandin E_2 in Guinea-Pig Colon. <i>M. Ishizawa</i>	282
Effect of Nicardipine on the Isolated Uterus and Other Smooth Muscles of the Rat. <i>S. R. Milovanović, J. Ognjanović, V. M. Varagić and B. Bošković</i>	291
